## Business Solutions for Africa

Verraki is a technology company founded with the intent of developing and transforming Africa, by developing business solutions designed inherently for Africa and specifically fit for purpose.

A fusion of two words: 'Versorium' (Latin for Turn Around) and 'Meraki' (Greek word used to describe the action of doing something with soul, creativity, pouring oneself into a task), Verraki aptly captures the essence of our company; to turn around African enterprises and governments via smart, future-focused solutions and business insights, new opportunities, helping to unleash their potential, turnaround their performance and achieve the seemingly impossible, with the sole goal of creating a better future for Africa.

We are committed to enabling the African (start-up) story by supporting high-impact socially conscious entrepreneurs and catalysing self-sustaining enterprises and governments within the continent to deliver affordable services across critical sectors.

Headquartered in Lagos, Nigeria, but with coverage across Africa, Verraki was established in April 2019.
